Why Pester?

Reduced Time Testing

Increased Productivity

Increased Predictability and Reliability

Pester

The ubiquitous test and mock framework for PowerShell

Pester Syntax

```
Describe 'Descriptive Name' {

  Context ‘Context Name #1' {

    It '$true should be $true’ {
      $true | Should Be $true
    }
  }
}
```

Demo

Updating Pester

Creating a Pester Test

How to Run Pester Tests

- Invoke-Pester
- VS Code

Debugging with Pester

Summary

Crash Course on Pester

- Describe
- Context
- It

Running Pester Tests

- Invoke-Pester
- VS Code shortcuts
